

NEW YEAR, NEW NAME

**WE'VE GROWN AND SO
HAVE OUR SERVICES**

**WELCOME TO
Universal Recycling
Technologies, LLC**

**YOUR FULL-SERVICE
RECYCLING PARTNER**

“Since 2003, our company has moved far beyond CRT processing. Today we offer complete solutions for e-waste, universal waste, asset management, convenient pack-and-ship recycling box programs and even manufacture our own proprietary recycling equipment. If you are seeking the best in technology coupled with the personal touch, look no further. Our recycling experts look forward to helping you and your company develop and sustain a compliance program that meets your every need, now and well into the future.”

~ Jim Cornwell, *President*

For many years now CRT Processing has been expanding its service and product lines to offer its customers the most comprehensive selection of trusted recycling services.

With locations across the nation and the ability to manage complex recycling programs with ease, URT: Universal Recycling Technologies (formerly CRT Processing) offers its customers turnkey recycling solutions backed by exceptional customer service and attention.

Same great service ... and so much more

At URT, we are committed to providing comprehensive recycling services and outstanding customer service. We guarantee responsible and ethical cradle-to-grave recycling. All waste is processed within our own facilities—never shipped offsite—providing our customers with absolute peace of mind and optimal service. We offer our business customers and end-user consumers one of the most comprehensive selections of recycling services and products available, including:

Universal Waste Recycling

- Lamps
- Batteries
- Mercury-containing devices
- Lighting ballasts

Electronics Waste (E-Waste) Recycling

- Glass-to-glass
- End-of-life destruction
- Consumer electronics returns

Recycling Equipment

- State-of-the-art, proprietary design, fluorescent lamp processing systems

WasteSecure™

- Convenient pre-paid pack-and-ship boxes to easily collect and send waste to URT for processing
- Private label packaging for large client programs

Asset Management

- Equipment refurbishment and component removal/re-marketing to turn obsolete electronics into revenue

No matter your need, we are here to serve you, conveniently and effectively. Let us help you design and sustain a comprehensive compliance program and make our world a better place.

Our Mission Statement

“To become a market leader in electronic and universal waste management focused on innovative technology with commitment to continuous improvement.”

Our Objectives

OUR CUSTOMERS

To provide first class, professional, and environmentally sound recycling services.

OUR ENVIRONMENT

To make a fitting contribution to our community and protect the environment in which we conduct business.

OUR EMPLOYEES

To provide our employees with a safe workplace that provides personal and career growth opportunities.

OUR VENDORS

To provide the best strategic partnership opportunity to our vendors.

OUR PERFORMANCE

To ensure we have a viable and sustainable business, which will safeguard our customers and support our employees and stakeholders.

We invite you to visit our state-of-the-art headquarters, located in Janesville, WI, or any of our nationwide recycling facilities to inspect our procedures and experience our operations firsthand. Compare our pricing and learn about our outstanding service from those who know it best—our customers—and you’ll quickly see why URT should be your first choice in recycling.

“URT: Universal Recycling Technologies (formerly CRT Processing) is easy to work with, responsive and great people. We never are left on hold and any questions or logistical issues we have are addressed promptly.”

Lorraine Kerwood
Executive Director,
NextStep Recycling

“URT: Universal Recycling Technologies (formerly CRT Processing) is a wonderful example of a business in the private sector that acts responsibly toward the environment and provides jobs to the local economy. Their role in recycling E-Waste, while keeping it out of the landfill and putting it into the recycling stream, is an invaluable service to us all. With the emphasis on ‘green’ practices in many areas of our society, this industry in general and URT Processing in specific, are shining examples of how business can be conducted correctly and successfully while benefitting both the private and public sector. I would also like to add that the employees of URT are always professional and a pleasure to work with.”

Steve Zusman
Executive Vice President,
Metro Metals Northwest
